

May 5, 2008 FSG meeting
Meeting began 7:05pm?

In attendance:

Glen, Marcos, Mindy, Cheryl, Amy, Ron, Nick, Carol—did I miss anyone?

Unfinished business

1) Reviewed one sheet ad submitted by sculptors. Some not accepted due to lack of required format. Amy will contact those individuals that did not follow the format. (Contact Noella Gonzalez (wrong format on the one sheet) Send email/call each submission to thank them and update them—Casselberry will print quality copies to give to builders/architects so please send a disk with digital file of the onesheet. Also invite them to the meeting and the website.)

2) Nick presented the granite bases for those who wish to create their sculpture on that. He will drill a hole for \$5 for anyone unable to do it themselves. Price of the 12" X 12" granite base is?

New business

1) Question of who may attend the monthly meetings was discussed heavily. Quite lengthy debate concerning limiting meetings to sculptors only. Perhaps we need to establish membership levels and qualifications: sculptors, patrons/supporters, businesses.

***2) With the building going on around Casselberry's City Hall, we have some unique opportunities. We can have input from the ground up as well as creating paying projects for ourselves. Proposed brainstorming ideas for presenting to Casselberry-- possible sculptures and artistic enhancements to their playground and other construction plans.

2a) Linda asked for ideas specific to upgrading a baffle box

III. Announcements—shows/workshops coming up this month

1) Mindy's grant trip—what she did, learned, and show and tell of a nifty adjustable armature stand.

Meeting adjourned 8:45pm?
